FMs around the world on alert for possible flu pandemic

BRUSSELS, Belgium — (5 May, 2009) —

Global FM organisations are ensuring that their members have the information to mitigate the effects of a possible flu pandemic. Facilities managers have a key role to play in limiting the spread of the virus and its impact on business and other aspects of daily life.

FM associations, including IFMA and BIFM, have issued guidance to their members and posted national advice sources.

This guidance is available to anyone involved in managing buildings and other facilities through the Web pages listed below.
